

Customizeable frames to match your space

Hang your screen close to the wall

Sedona

Framed Digital Signs
by FuneralScreen

Designed to look like a slim picture frame

Bring your lobby to life with the Sedona digital sign system. With these slim, high-impact screens, you'll be able to display any photos, videos and service announcements you like with ease.

Your lobby is the first impression many people have of your funeral home. Create a professional and inviting atmosphere. With our powerful sign management features, you can deliver unlimited, highly-attractive digital signage that's easy to update and maintain.

Reinvent what you think a display can do with access to FuneralScreens' vast library of apps, resources, ads, and an unlimited number of services to your screen - this is one display that will always impress your guests.

Customizable Bezel*

Applications for digital signage in the funeral home

Lobby Directory Signs

Create a lasting first impression on your families and guests, and an inviting atmosphere in your lobby while providing clear and concise messaging with professional looking service announcements, and ads.

Room Signs

When installed outside a room on a wall, digital signage is an effective solution for displaying the location/room name as well as the event taking place in it. Signs can display pre-need advertising when the room is not being utilized.

Register Stands

Installing a digital sign above a register stand is a great way to communicate to families and guests. Display a QR code for guests to sign an electronic guest book, speeding up the guest registration process.

Chapel/Visitation Rooms

Display tribute videos without the need for a DVD player. You can also show digital portraits that are personalized with photographs of the decedent along with any custom text or background that reflects their hobbies or lifestyle.
