

FuneralScreen SW3295T

Setup Instructions

STEP 1 INITIAL SETUP:

Follow on-screen instructions to connect to WiFi and to pair the remote control to the screen. When prompted to connect to a Google account, click on skip as this is not necessary. Toggle off all Google services when prompted. Enter a 4 digit pin to restrict unauthorized access. Follow on-screen instructions to pair the remote control to the screen.

STEP 2 CHANGE HOME APP:

Select **Settings>Apps>Default Apps>Home App** and select **Quickstep**.

STEP 3 INSTALL APKs:

Select Google Chrome to open the browser. Select "Use without an account" if prompted. Select "No Thanks" when prompted for Chrome notifications. Using the on-screen keyboard, enter the following URL in the address bar: <https://packages.dsbackend.com/u/app/android/1.134.0/apk>, and press the return key. **Open** the downloaded file **1.134.0.apk** from the pop-up window to install the 2 APK's.

Content Module: Select **Install>More Details>Install Anyway>Open**.

SignageOS: Select **Install>More Details>Install Anyway>Open**.

When the Unsupported device window opens select "**Continue anyway**".

STEP 4 Register Screen:

The screen should now be displaying the registration code. Follow the on-screen instructions to register the screen to your account.

We encourage you to call us at 800-270-1237 anytime during the setup to assist you with questions.

Once the setup is complete, visit

<https://bookings.funeralscreen.com/#/digitalsignageonboarding> to schedule your onboarding training session. Allow about 1 hour for this web-based screen-share software training.

You can find the documentation on the FuneralScreen digital signage portal at <https://app.funeralscreen.com/docs/>
